

We have an immediate opening for a full-time and permanent position as

Senior Developer/ Application Architect (m/f)

Challenge in an international expanding company

We offer you the opportunity to use your abilities for professionally developing sophisticated network visualizations and, together with us, move the pharmaceutical market.

Job Description

In the challenging position as Senior Developer/Application Architect, it will be your task to run the requirement analysis, programming, documentation and testing of in-house software for the graphical visualization of network data. You will support our Consultants and Analysts in their project business with a modern and highly scalable infrastructure. Furthermore, you will support our internal production processes which makes the data transparent and useful for our customers. After your familiarization with the complex software environment, the following tasks will be your responsibility:

- Structured development and maintenance of software
- Coordination, documentation and implementation of the requirements of the departments
- Preparation and implementation of structured testing

Your Requirements

- Completed Master-/Diploma-studies in computer science, mathematics, physics (or equivalent) with very good grades
- A minimum of 2 years work experience in software development, implementation and design
- Substantial experience with professional software development processes within a team and project planning
- Very good programming skills with Java and SQL
- Best proficiency with development and test environments (Eclipse, Netbeans, etc.)
- Very good knowledge of distributed applications and Master-/Slave-architectures
- Good English skills
- Other Skills: independent problem-solving, strong ability to prioritize, and in weighing the costs and benefits of different requirements, good communication and team skills, high sense for user needs

What Awaits You

A challenging and interesting position with multifaceted tasks and a lot of room for creativity. On top of this, a young, successful company with a fast-growing team that is ambitious and full of enthusiasm for their work. Based on the best market and network data available, Mederi Consultants and Analysts develop innovative solutions to optimize R&D, sales and marketing for our customers.

We value a corporate culture defined by sincerity and respect. And our success speaks for itself - eight of the top ten leading pharmaceutical companies use Mederi solutions.
