

We have an immediate opening for a full-time and permanent position as

Senior Analyst (m/f)

Challenge in an international expanding company

We offer you the opportunity to use your analytical abilities in challenging projects and, together with us, move the pharmaceutical market.

Job Description

As a senior analyst, it will be your task to sum up complex problems in a structured manner and convert them into algorithms. Through your strong orientation to service and ambition to generate the most efficient solutions, you will support our consultants and contribute continuously to the development of new solutions and the optimization of standards. You have already shown that you can work successfully and efficiently on a team and are able to take on responsibility quickly to find new solutions within larger projects.

Major Job Responsibilities:

- Development of statistical analysis, forecasting and optimization models on complex networks in cooperation with our consultants and research manager and subsequent implementation (Python, MySQL)
- Process Design and –management of the internal production processes
- Project implementation of calculations with complex statistical analysis, forecasting and optimization models, selection of appropriate calculation methods according to project requirements in collaboration with our consultants
- Automation of model calculations, quality assurance of model results

Your Requirements

- Outstanding academic degree in industrial engineering, business informatics, mathematics, statistics or equivalent (Diplom, M.S. or M.A.)
- Several years of professional experience and/or a completed PhD
- Enjoy working with innovative statistical models and optimization models on large amounts of data
- Profound knowledge in one of the areas Data Mining, Machine Learning, Network Diffusion Models, Social Networks or a comparable area are beneficial
- Profound knowledge of database programming (e.g. SAS, MySQL) and script programming (e.g. Python)
- Other Skills: high motivation to achieve, strong organizational and follow-up skills, endurance and flexibility, teamwork, and enthusiasm in solving complex problems

What awaits you

A challenging and interesting position with multifaceted tasks and a lot of room for creativity. On top of this, a young, successful company with a fast-growing team that is ambitious and full of enthusiasm for their work. Based on the best market and network data available, Mederi Consultants and Analysts develop innovative solutions to optimize R&D, sales and marketing for our customers.

We value a corporate culture defined by sincerity and respect. And our success speaks for itself - eight of the top ten leading pharmaceutical companies use Mederi solutions.
